Unsettled by unknowns underfoot?

Are you a graduate student interested in...

- terrestrial ecosystems
- biogeochemistry
- plant productivity
- water quality and quantity
- global and/or land use change

…but have never had a soils class?

Fear not!
Here’s a chance to get up to speed:

**FREC 5984: Advanced Soils**

MWF 10:10 – 11:00 • Spring 2018 • CRN: 20005
