Spring Seminar Series**

The Influence of Land on Energy, Water, and Climate

Katherine V. Calvin

Joint Global Change Research Institute

Pacific Northwest National Lab

Dr. Calvin is a scientist at the Joint Global Change Research Institute. Her work focuses on assessing climate change impacts and potential adaptation as well as examining the effects of bioenergy and land policy on land use.

Dr. Calvin was a lead author for the National Climate Assessment, a contributing author for an IPCC assessment, and is currently on the scientific steering committee for the Land Use Model Inter-comparison Project.

**March 24th, 2017
Fralin Auditorium
Fralin Hall
Refreshments 10:45
Seminar 11:15 - 12:15**
